A Life Changing Moment

October 9th, 2019...

The day my life changed when I heard
those words **no one wants to hear:**

“Carol, you have cancer.”

But instead of feeling fear...

I immediately felt grateful.

Now, I know this is not the
usual response the doctor gets!

After teaching about stress for **30** years,

I have trained my brain to 

HOW things could be much worse.

In this case...

I could have had this cancer inside me
AND NEVER KNOWN IT WAS THERE

until it was **too late.**

I was & still am **grateful** because

I can now *do something* about it.

However...

As soon as my surgery date was set,

I struggled for the next few days.

I couldn't

these negative

thoughts from trying to *hijack my brain.*

IMPORTANT: *We cannot stop our thoughts,
we can only **manage them!***

The Danger Zones

There were 2 directions these thoughts
would try to take me...

#1

The “Why Me” Detour

#2

"What If" Alley

The problem is...

when we are in one of those places,

We are **not** in the *one place*

we can DO SOMETHING about stress...

the PRESENT!

The “WHY Me” Detour

This is the **first** dangerous place
to get lost in.

Some of my **Why Me's...**

- *Why did this happen to me?*
- *It's not fair... I keep myself healthy.*
- *Why is my family curse haunting me.*

I would get lost in a “Pity Party” –

feeling **sorry** for myself & **angry**.

What are some “Why Me’s” haunting you?

“What If” Alley

The **other** dangerous place
to get lost in is “what if” alley.

Some of my **What If's...**

- *What if I don't survive the surgery?*
- *What if I can't work again?*
- *What if the treatment doesn't work?*

And on & on & on it can go until we end

up so **lost & overwhelmed.**

What are some “What if’s” haunting you?

TOOL #1

NOW Stone

- 1)** Find a stone that will fit easily in your pocket.
- 2)** Write the word “NOW” on it with a marker that won’t come off.
- 3)** When you go down “what if” alley hold the stone & say these

Notice

Only

What-is

TOOL #2

Start paying attention to your:

Thoughts

Feelings

Behaviors

These will be the indicators you're
heading towards **“What If” Alley.**

When you notice you're getting lost,
say the following phrase to yourself:

'Feel your feet!'

Both tools help ANCHOR you
in the present moment & pull you out of

“What If” Alley.

Everything you are about to

LEARN

I used

to keep what could have been

overwhelming and *unrelenting* stress

under control during

my entire cancer treatment!

My **promise** to you:

When you are done *reading* this

You'll have a **system** and the “**tools**”

to take control of your stress!

Welcome

Today we face one of the most
challenging times of our lives due to:

CORONAVIRUS (COVID-19)

This virus has **closed down** life
as the world knows it, creating
these **MOST stressful** times.

If you are reading this  , there is

one thing I know for sure about you...

You are **either...**
at a breaking point
OR
heading in that direction.

Whichever it is –
I am glad you are here!

There is **NO** *shortage* of stress
when it comes to ***life these days!***

From social distancing & virtual life
to grieving friends & family members
we've lost and to jobs no longer there.

There's plenty of stress to go around...

The problem...

when **stress** is not managed,

it has the *power to ruin* a lot of things...

health

relationships

hopes

dreams

&... lives.

It is my sincere hope you will take &

use what you learn in this book!

You will either manage your stress

or

IT CONTINUES TO MANAGE YOU!

Getting Started

Let me ask you a

What if you could learn how to

RELIEVE stress in just ***60 seconds?***

Would you want to know?

If the answer is

“yes”

than just keep on reading!

You are about to learn a **revolutionary approach** to dealing with your stress.

This approach will put **you** in

control of stress once & for all.

It may seem like it is too good to be true –

But it isn't!

I'm going to share with you the

secret system I've been
teaching my patients since **1991**

Equally as important,

it is the **same system** I use every day...

I LIVE WHAT I TEACH!

That wasn't always the case...

When I started 18 years ago at the

where I still currently work –

STRESS had *control* of me!

Only...

I didn't *realize* it...

It wasn't until I landed

in my doctor's office

3 weeks in a row

with *horrible migraines* & he asked

“Carol, what's got you so stressed?”

Now, the most **embarrassing** part:

Here I was *teaching my patients*

the

to manage their stress...

BUT I wasn't *using them myself!*

Since that day,

I have **kept** my commitment to

I LIVE WHAT I TEACH every day!

Everything I share  here with you –

My Biggest Excuse

I'd been in my new job at the
hospital for about 8 months.

I LOVED IT!

In fact, I remember thinking to myself:

*'I can't believe I am
getting paid to do this!'*

It was a busy place – so busy I didn't...

Get to stop & eat lunch

Get to take my breaks

Even step outside for 1 minute!

BUT...

When the migraines hit me so
HARD I knew I had to make a

Big change.

Leaving my job was not an option.

Besides –

I knew from having worked at
other hospitals, it would be the
same *STRESS everywhere.*

What had to **change** was **ME!**

I had to start using the tools I was
teaching even if I only had **60** seconds.

That's how I *discovered my system works!*

About This Book

I doubt you have read a

like this!

I like to use a lot of pictures,

analogies, & word art which help
information stick in the brain!

I call my approach:

***SMART*Theory™**

(It's what makes my books and services

different from all others!)

KNOWLEDGE is the *left brain* at work.

This is where YOU ***know*** what to do!

Since I use “pictures” & “images”, I end up
tapping into the other side of the brain –

the right side!

With both sides working

on the same page,

the end result is getting people to

Move knowledge into ACTION!

You'll find this book is broken in to 3 parts:

Step 1: Stop Using the WRONG Tools

Step 2: Become A Stress Detective

Step 3: Start Using the RIGHT Tools!

Step #1:

Here we look at how people are fooled

in to thinking they are **DOING**

something about their **stress....**

Only to find out when it's too
late they just made
more stress.

You'll also learn...

WHY we do that!

Did you know...

Studies show 34% of people

USE FOOD as a way of

dealing with their high stress levels.

Step #2:

Here I introduce you to a concept

that will **CHANGE**

your life **forever**....

You'll never think about stress
the same way **again!**

You also learn *WHY we must*

DO something about it.

Did you know...

Studies show over 80% of people

DO NOTHING about

their record high stress levels.

Step #3:

This section will ***give*** YOU the tools
to get the job done!

You'll learn **A LOT** of
different “tools”!

The secret I learned a long time ago...

Having the *right tool*
for the *right job* makes
the difference between
Success and failure.

Also,
1 TOOL *won't work* the
same for everyone!

What's The Impact?

BEFORE COVID - stress could be found *all around the world* & already at **epidemic** levels -

Stress hindering the UK economy

Work-related stress in Britain has reached epidemic level

Xinhua | Updated: 2018-10-31 23:34

THE HUFFINGTON POST
TOP NEWS AND OPINION

Gina Soleil, Contributor
Author, Speaker and Workplace Mindfulness Coach

Workplace Stress: The Health Epidemic of the 21st Century

01/07/2016 03:16 pm ET | Updated Dec 06, 2017

In the US the following results: (APA / AIS 7/28/14)

77%

Regularly experience physical symptoms caused by stress

54%

Say stress has caused them to fight with those they love.

76%

Identify money and work as the leading cause of stress

48%

Say stress has had a negative impact on their lives

\$300 Billion

Estimated annual cost to US businesses / employers

So, what does this mean?

Stress *has been* a **HUGE** problem

What is stress **COSTING YOU?**

Are you so stressed out you can't sleep?

Is stress spilling out on the wrong people?

Are you having anxiety or depression??

Are you starting to have health issues?

A “yes” to any of these is a sure sign
stress has *taken CONTROL* of your life.

Chances are...

no matter what you’ve tried it still

DOESN’T HELP.

That’s because what *we’ve been taught* is

ALL WRONG!

Let Me Explain -

I used to get stressed out at work by

10:00 am

Stress management

meant going to the gym to exercise at

or

6:00 pm

Getting a massage at

7:00 pm

The **problem** is...

MIGRAINES

would come at

2:00 pm!

I discovered that having to wait
to do a “stress management” activity
did NOT work...
for me or my patients!

This led me to develop a new approach
to dealing with stress called:

Stressometry[®]

So, what is it?

Stressometry®

It's when you get stressed out...

at 10:00 am

Being able to take
ACTION ON THE SPOT
to reduce stress!

This is how I got control of my migraines!

Now instead...

10:00 am

60 secs.

**MIGRAINE
AVOIDED!**

60 secs.

***Punching
Bag***

10:02 am

There's another way to understand it:

Just like a

-

STRESS has two sides.

Don't get me wrong!

Stress management has its place in
our lives as a great prevention tool.

However, that's only **1** side.

We need to work on the other side too!

PREVENTION

**Stress
Management**

INTERVENTION

Stressometry®

WE MUST DO & LEARN BOTH!!!!

It's In the Cards!

When you'd come to my live seminars,
as you took your seat, you'd be handed
a playing card!

It may be a king, or it may be a three....

The

key point

is:

You **DON'T** get to **CHOOSE**

what card you get!

This applies so wonderfully **to LIFE** –
where we'll face many situations that

WE DON'T GET TO CHOOSE!

This is particularly the case
with this CORONAVIRUS pandemic.

You may have had many plans for how
your life was going to go... and now
it goes the other way.

There are so many factors
you don't get to control.....

Certain Places Closed

Kids with Virtual School

Becoming Unemployed

Can't Get Thru to Unemployment

Financial Worries

So,

what are you supposed to do

All that you *can* do...

Play the cards you're dealt that day

the **BEST** that you can!

Here's a couple of the tools I use:

IT'S NOT
WHAT HAPPENS
TO YOU,
BUT
HOW YOU REACT
TO IT
THAT MATTERS

EPICTETUS

Another way to think about it....

We don't get to control the events,

We do get to control

our response to them!

We are **100%** responsible for our **choice:**

Controlling

How

Our

Intentions

Create

Experiences

© 2020 & licensed by Well YOUniversity, LLC

Taken from the *WordTools Series*

This is my favorite &

the ***MOST POWERFUL:***

WHEN WE FACE A SITUATION
THAT ***CANNOT*** BE CHANGED
WE ARE **CHALLENGED**
TO
CHANGE OURSELVES

VICTOR FRANKL

Are you trying to change things
you **CAN'T CONTROL?**

Do the exercise on the next page to see!

Write down as many things you can think
of having to do with your life right now:

(Use another piece of paper if you need more room!)

A large, empty rectangular box with a black border, intended for the user to write down their thoughts.

Now go back & circle

ONLY the things **you can** control!

Tracking Your Progress

Monitoring

I developed a **tool** to help my patients
be able to track their progress.

The Stressometer™

It's pretty **simple** to use!

1st - Read each question & select the
answer that ***best describes you.***

2nd - When you get to the end, ***total
up***
all the numbers for a score

3rd - ***Check your score*** on the key.
Repeat to see how you progress!

1 2 3 4 5 6 7

Not at all All the time

1 2 3 4 5 6 7

Not at all All the time

1 2 3 4 5 6 7

Not at all All the time

1 2 3 4 5 6 7

Not at all All the time

1 2 3 4 5 6 7

Not at all All the time

Total: _____

How Stressed Are You?

5–10 **Great news!**

You have no stress!

11–15 **Good news!**

You have just a little bit of stress!

16–20 **Not bad!**

You seem to still have a handle on it!

21–25 **WATCH OUT!**

STRESS is *starting to cause trouble!*

26–30 **WARNING...**

STRESS is *greatly impacting* your life.

31–35 **DANGER Zone!**

Your level has you at extreme risk.

Your score ***will come down*** when
you use the system!!!

Another Tracking Tool

How to tell if this  is helping!

There are 2 more ways to track -

Both use a score of 1 to 100

#1

Track your **daily** stress level
(do this every evening)

#2

Track your level **before & after** you use the tools!

****Since this is new for you
it may take a little time for you to
get used to the tools!****

For this system to WORK...

YOU must *take* **ACTION!**

Here are a couple of my **WordTools** to help:

A

Taken from the *WordTools Series*

Here's one last important point...

“Whether you
think you can
or think you can't
you're right”

Henry Ford

I'd like to share an example of
this quote in ***ACTION!***

Ever heard of Yosemite National Park?

I grew up right next to it!

10 years ago, I went
back to visit & decided
to climb **Half Dome.**

(See on next page!)

We left the parking lot at 6:00 am &
didn't get to **The Climb** until 3:00 pm!

You pull yourself
up using cables!

It's
REALLY STEEP!

My brother & got **separated**
from our nieces early in the day...
(They are 20 years younger than us!)

When we reached the climbing part,
I told my brother *"I'm good just waiting at
the bottom for the girls to return."*

I was thinking **I CAN'T**

Suddenly my nieces showed up

from BEHIND US

& started encouraging us to climb!

That got me thinking...

I CAN

And I did!

This is the view from the top!

By the way,

My brother was *super happy* to finally
make it back down to the bottom!

Now,

The ONLY thing that *changed?*

My thinking!

From - **I CAN'T**

To - **I CAN**

Every day we face a **CHOICE:**

CAN

CAN'T

Our Success

depends on which one we choose!

To *take control* of **STRESS -**

it requires you *choose I CAN!*

Step 1

Stop Using the *WRONG* Tools

Let me ask you a question:

Have you ever taken one of these...

and used it as one of these?

How'd it

work

for you?

Just in case you answered...

"It **worked** *okay!"*

this next question is for you -

I put together two hammocks -

Knife

Screwdriver

One I used a *knife* &
the other a screwdriver...

**Which one do you want
to lay in?**

I'll bet you chose the screwdriver!

If you laid in the knife hammock,
you'd probably end up with a

broken arm

And, what about...

How many things

have you used this for?

Here are some of *my* uses:

It makes a great lint brush
for removing dog hair!
(better than the expensive ones!)

It fixed many a pair of my
patient's glasses at work!

This way a few months until I
saved enough to get it fixed!

These are examples of...

Quick Fixes!

“Quick Fixes” are things we grab

‘in the moment’

to help deal with the situation.

The problem is

“Quick Fixes” are *only*

Temporary Solutions

And...

Only lead to even **MORE STRESS!**

The same thing can happen
with **stress**.

I also call things we grab onto early in life

Survival Tools,

And in many instances,
they do help us get thru &

survive

The problem is that many of these

SURVIVAL TOOLS

go on to **become** a problem...

They can hurt us later in life...

Here are a couple of examples:

Coors Light is a registered trademark of Coors Brewing Co.

My **Survival Tool...**

Only I was just **14** years old.

I'd **overheard a conversation** & learned
my father was dying from cancer.

*I didn't tell anyone what I
learned...*

Instead I started stealing alcohol.
& even taking it to school.

Now,

I HATED the taste of alcohol!

But it helped me **avoid** feeling

overwhelmed

about my dad dying.

Luckily for me...

alcohol did not stay my

Survival Tool

Basketball

became my **new tool!**

This brings me to my next example:

Oprah struggled with her **weight**.

She **ONLY** had success once
she realized food was her tool!

It started when she was young
and suffered the trauma of abuse.

It was her **Survival Tool**

It **helped** her when she was young,

It **HURT** her later on...

Some More Wrong Tools:

Drinking / drug use

Spending / Shopping

Food / Eating

Working a lot

Smoking More

Arguing

Isolating

Complaining

Caretaking

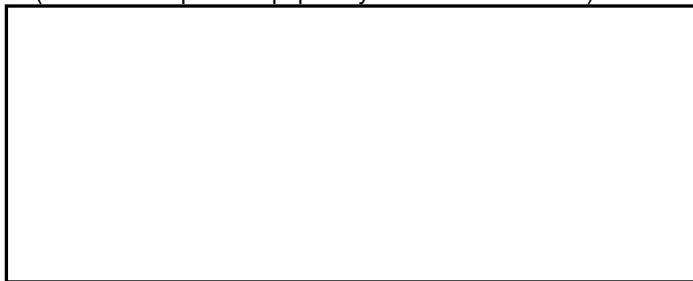

Avoiding / Denial

Using Social Media

Are you using any **WRONG TOOLS**?

Write them down here:

(Use another piece of paper if you need more room!)

A large empty rectangular box with a black border, intended for the user to write down any 'wrong tools' they are using.

BEWARE:

Anything we grab at to help us either:

AVOID or **IGNORE**

The **WRONG Tools**

Even healthy things

can cross the line

UNHEALTHY

&

become The WRONG Tools!

Before we move on to the next step,

A word of **warning...**

Do not ***substitute*** one WRONG Tool

for another WRONG Tool!

Ralph smoked for 40 years.

He quit for health reasons.

He **gains** 25 pounds!

He stopped one ***unhealthy tool*** and
did NOT replace it with a healthy one!

Join Us For...

StressTalk.live

Step 2

Become a Stress Detective!

What Is Stress?

A simple definition is:

“Our **response** to
a change or situation.”

Most important is understanding
our bodies are “**wired**” with this response.

It's designed to **keep us alive!**

It works...

on its own & without our control!

We **CAN'T** stop it completely

BUT – we can learn to **MANAGE** it.

Making Stress Visible

What if ...

We take a bottle of root beer
and SHAKE it up a lot!

So,

what do you think will happen
to the bottle of root beer?

You're **right!**

The PRESSURE builds up inside!

It's same way with stress...

Life happens every day that
shake us up!

And...

Just like the pressure
BUILDS UP
in the bottle...

PRESSURE builds up *inside us!*

Sometimes it's just *a little pressure*
&
other times *it can be a lot of PRESSURE*

Unfortunately,

Most people *don't recognize*

how much pressure is building up

until it's **too late.**

This leads to one of 2 things happening:

#1 – You EXPLODE

And it comes spilling out

on the wrong people.

#2 – You IMplode

And it stays inside
but makes you sick.

(How to STOP this is in Step 3!)

If we look at a bottle of root beer
We **SEE** *the pressure's built up:*

Because the bubbles show up on top.

You must begin to recognize

when the pressure is

building up in **YOU!**

Stress shows up in us **3** ways:

Physical → **Your Body**

Emotional → **Your Feelings**

Behavioral → **What You Do**

What to Watch For

It is **critical** that you start to pay attention to **HOW** stress shows up in you.

On the next few pages is an **inventory** to help you begin to ID your

- 1) Read carefully thru **each** one listed in all 3 categories.
- 2) If you have experienced, it at *any time* – **circle it!**
- 3) Be on the **lookout** for when it is building & do Step 3!

Physical: What your **body** does
that you *can't stop*.

Other: _____

The

to success...

Recognize your stress levels are rising

&

do something about the pressure

BEFORE you

Explode

or

Implode

Our body gives us plenty of signs

the level is rising!

Become A Stress Detective!

Has this ever happened to you?

You are going on a trip
the next morning.

You lay down to go
to sleep the night before

AND...

You can't sleep!

This is our “wired” stress response to a
change that is occurring!

Yes...

**even + changes can cause
a stress response!**

I'm afraid I have some **bad news...**

We can't stop
ALL of our stress responses.

We **can**

take steps to *minimize*

the response when it happens.

Instead of NO sleep - 

I can get *at least 5 hours!*

Let's move on to

Step 3...

Step 3

Start Using the
***RIGHT* Tools!**

My Secret System

Remember...

Things happen in life that
shake a person up -

Just like the pressure
BUILT UP
in the bottle...

STRESS builds up *inside people!*

And once the *STRESS* gets built up

It stays there...

It won't go away on its own.

The **STRESS** doesn't go anywhere

UNTIL

we do something to let it out!

HOW we do this is
the secret you are about to learn!

And just like the bottle,

It's *not good* for **too much**

STRESS to

build up inside people!

REMINDER: What happens when

TOO MUCH stress builds up...

#1 It comes **SPILLING OUT** &
leaves a **big** mess.

Have you ever:

*Said hurtful things or things you wished you
hadn't said, yelled, got in a fight, broke things,
or got in trouble at work or school?*

#2 It **STAYS IN** and ends up
ruining ***your health***.

Have you ever:

*Felt anxiety, can't sleep, gotten headaches,
ate too much or not at all, felt sad & depressed,
gut issues, couldn't concentrate, worried a lot?*

How I discovered this secret system
was ***out of desperation!***

Because stress was
causing my migraines...

I needed to ***DO SOMETHING!***

I was desperate....

So,

I started using the “tools” I was
teaching my patients for
just **60** seconds...

This was the **ONLY** way I could
fit them into my workday!

To my surprise...

it **WORKED!**

There was ***no migraine*** that week.

I kept using this strategy &

encouraged my patients *to give it a try.*

Afterall, they'd be more likely to use

the "tools" I was teaching **if**

they **ONLY** had to do it for **a minute.**

And I discovered

Not only did they report
using the “tools” more **often**, they
also felt *in better control* of their stress!

What you’re about to learn

will work for **YOU** too!

Over the years of teaching this system,
it has helped **1,000's** of people
just like you take control of **STRESS!**

Are you READY?

Let's go...

What To Do

This is where almost everyone

gets it **wrong!**

Because you're reading this book...

you'll know the

What you are about to learn is my *secret*

DO60 SystemTM

- It ***doesn't take*** a lot of ***time!***
- It will work for ***everyone!***
- It can be used ***everywhere!***

There are **2** steps to the

DO60 System™

Step 1 -

the level from **RISING!**

Step 2 -

RELEASE so the level drops!

Each step must be done *in order...*

Step 1  Step 2

Each step must be done *for 60 Secs*

Just so this makes sense...

In order to  the level from **rising**
you must do something that is
calming for you!

Calming = Activities that require
NO energy or muscles
be used!

I'm afraid I have a little bit of

You can **ONLY** use your cell phone
for this first step!

Cell phones ***DO NOT*** require
enough energy or muscles for Step Two.

Now,

In order to  **release** & drop levels

you must do something *you like*

and is **active**

Active = Activities that **DO** require
energy & muscles

BE USED!

*So let's apply this
to our stress bottle...*

Step 1 -

the pressure

from continuing to build up!

Step 2 -

the pressure

that's been built up inside!

Each step:

- ✓ Must be done **in order**
- ✓ Must be done for **60 secs.**

**** Otherwise the system won't work ****

On the following pages are
a bunch of different **“tools”**.

Each one is good to use for

Step 1 -

Things from **RISING!**

There are a **4 keys** to

**S
U
C
C
E
S
S....**

#1

Try out each one.

(**even if** you don't think
it will work for you!)

#2

Do 60 Seconds.

(if you can go longer – **do it!**
30 secs. **is better than** none!)

#3

Keep a list.

(write down tools that end
up working **best for you**)

#4

Have more than 1!

(don't set yourself up to fail
the **more tools** the better!)

You **must** do **Step 1** *before* Step 2

Step 1  Step 2

Tool #1

read

grab one of your favorite books

Real

or

Kindle

Either way..... you're reading!

Tool #2

Music

Listen to one of your favorites!

Song

or

Artist

Tool #3

Breathe

✓ Count your breathes

There are a couple ways to do this:

#1

Track the # you do
in 60 secs.

or

#2

Set a specific # to do
10, 12, 15, 20

Belly Breathing is best!

This gets lots of oxygen in to our brain...

Oxygen is **kryptonite** to STRESS!

Another way to ***BREATHE:***

✓ **Square Breathing**

- 1) ***Breathe in*** & count to 4 in your head (1,2,3,4)
- 2) ***Hold it*** & count to 4 in your head (1,2,3,4)
- 3) ***Breathe out*** & count to 4 in your head (1,2,3,4)
- 4) ***Hold it*** & count to 4 in your head (1,2,3,4)
- 5) ***Repeat!***

Here's what it looks like!

Tool #4

Take A Time Out

Remove yourself from the situation.

Create **space** between

YOU & the situation or person

Go outside!

**Go to
another room**

Tool #5

Mind Push Ups!

Here's how:

1. Find a quiet spot to lie down.

2. Set a timer for 60 secs. (***or more!***)

3. Put a book on your belly.

4. As you breathe in, make
your belly & the book rise up!

5. Breathe out like your blowing candles.

6. Repeat breathes until timer goes off!

Tool #6

+ SELF-TALK

Saying positive statements to yourself!

The 2 P's of Self-Talk!

1) Present

I AM.....
THIS IS....
I HAVE....

FUTURE

I will....
I hope...
I'm going to...

2) Positive

Don't touch = TOUCH!

Not...
Won't...
Can't...

Our brain filters out the negative
& all we hear is what's after it: **TOUCH!**

** See a list of self-talk ideas on page 102**

Tool #7

The Serenity Prayer

God,

Grant me the **serenity** to **accept**
the things *I cannot change*.

The **courage** to **change** the things I *can*.

And the **wisdom** to **know** *the difference*.

Carol's
'In the Moment Serenity Prayer'

Ask yourself the following **?**

"Can I do anything about IT
RIGHT NOW?"

If yes, ***DO it!*** If NO – ***Let it go!***

Here's a few more

tools –

- Guided Imagery on 

- Count to 10 **s l o w l y !**

- Watch a favorite show or movie

- Blow bubbles

- Lie down & look at the sky

- Picture a  sign in your mind

- Make a “Calm Jar”
Google It!

Positive Self-Talk Ideas

I no longer give power to the PAST

Today I feel peace & calm.

I am free of negative feelings.

I am learning to love myself.

Today, I choose a positive attitude.

I am terrific just the way I am!

I have all the time I need.

I am living a healthy life today

Today, I forgive all others and myself.

I am getting better one step at a time!

I am having a great day!

I am a good friend to have!

Can you think of other ways for you to:

The level from **RISING!**

Remember -

This step is one that is **calming...**

(Requires NO activity or muscles!)

Now we'll take a look at what to
do **AFTER** you have done

Step 1

On the following pages are
more **"tools"**...

Each one of these is

good to use for

Step 2 -

RELEASE what's there!

Again, here are those  's to success!

#1 Try out each one.

(*even if* you don't think
It will work for you!)

#2 Do 60 Seconds.

(if you can go longer – *do it!*
30 secs. *is better than* none!

#3 Keep a list.

(write down tools that end
up working *best for you*)

#4 Have more than 1!

(don't set yourself up to fail
the *more tools* the better!)

Remember: you **must** do Step 1 *before* Step 2

Step 1  Step 2

Tool #1

Talk

Grab one of your favorite friends

In-person

Zoom

Phone

Either way..... You're ***talking!***

IMPORTANT:

Talk about your *feelings*, ***not*** the situation!

Tool #2

Do A Dump & Destroy

This is one of my secret weapons!

Here's what you need:

- ✓ A piece of paper
- ✓ Something to write with

1) Start writing

2) *DO NOT READ IT*

3) *Destroy IT!*

*****It WON'T work with a computer*****

It requires you to use paper!

This is different from “Journaling”....

with Dumping –

The goal = Just get it out!

Reading IT = *reloads it!*

It also works *really well* when**...

1) You can't **fall asleep**
because your *mind racing*

2) You **wake up** at night &
your mind is racing!

****IMPORTANT:**

You must go write in ***another*** room for it to

TIP: Use a sharpie & toilet paper, flush when done. No one will ever read that!

Tool #3

Empty Chair Method

When you don't have anyone
or you can't get a hold of someone

Use this tool!

You start talking to the

“Empty Chair”

As if the person was there!

It is a great way to **VENT** without
getting in trouble for what you say!

Tool #4

Get ACTIVE!

There are many ways to do this!

Walk

**Any Kind of
Exercise**

**Climb the
Stairs**

Bike

Push Ups

Sports

Tool #5

Music

For this tool to work, you **MUST**:
you **DO more** than just listen!

Dance = Any time you are
moving to music!

ging = Doesn't mean you **can**
or
KNOW the words!

Perform = Play a real **instrument**
or

AIR guitar / drums

Tool #6

Punch n Dump!

There are **2** ways to do this:

1)

Use a real punching bag.

Don't have one?

You can make one using a pillow!

+

2) Air Boxing!

You must **be sure** to do this in a
place where it is **SAFE**.

Tool #7

Let It Out!

When stress builds up...

Sometimes a good cry or a good laugh
is needed to ***let it out!***

Cry

It's perfectly okay to
let the tears flow.

(Even for guys)

Laugh

Watch a funny show
Try Laughter Yoga

Here's a few more tools –

- Tear up an old phone book or a bunch of paper

- Wash the car

- Do some coloring!

- Rake leaves

- Do some jumping jacks!

- Scream in a car or another safe place

- Constructive Destruction – break something on PURPOSE!

Can you think of other ways for you to:

RELEASE what's there!

Remember -

This step is one that is **active**...

(DOES require activity or muscles!)

StressTalk.live

Wrap Up!

Congratulations!

You now have the “tools” &
the training to be a professional

Stress Monster Tamer!

What We Covered

Right at the start,

I introduced the Danger Zones:

The “Why Me” Detour

&

“What If” Alley

And,

I offered a couple tools to

help keep you from getting LOST...

TOOL #1

NOW Stone

TOOL #2

‘Feel your feet!’

We then looked at how
stress has impacted **you**.

What is your **Stressometer** score? _____

DON'T have it?

- ✓ Go *right now* to page 39
- ✓ Do the quiz!
- ✓ Come back & put the score

This is the **ONLY** way to keep

“Stress Blindness”

from stopping your progress!

Also,

We DON'T always get to control
what shows up in **our lives...**

What we **DO** get to control:

How we **choose** to respond

&

What we **choose** to think!

CAN

CAN'T

Our Success

We then looked at **Step #1:**

Stop Using the WRONG Tools

We all have these old, “Quick Fixes”
that’ve been around most our lives!

Are they *helping* or hurting you?

If you DON'T stop what's hurting you,

It will be **Impossible**

to use the other steps!

Write down the **Wrong Tool** you use the **most**:

--

Moving on to **Step #2:**

Become a Stress Detective

Stress is “Our **response** to
a change or situation.”

We **CAN'T** stop it completely...

only **recognize it**

&

do something about it!

Just like the pressure

BUILT UP

in the bottle...

STRESS builds up *inside people*

And once the *STRESS* gets *built up*

It stays there...

It won't go away on its own.

The **STRESS** doesn't go anywhere

UNTIL

we do something to

Let

It

Out

Using my ***Secret System.***

That brings us to **Step #3:**

Start Using the RIGHT Tools!

There are **2** steps to the

DO60 SystemTM

Step 1 -

the level from **RISING!**

Step 2 -

RELEASE so the level drops!

The system **ONLY** works when...

- **Each step** is done *in order*.

Step 1  Step 2

- **Each step** is done **60 Secs.**

SPECIAL NOTE:

If the situation **prevents** you doing

60 seconds for *each step*...

DO whatever you can –

Just be sure to **DO**

Step 1

Step 2

Bonus Tool

I created this tool for my patients &
discovered I **needed** it more!

If you start ***feeling overwhelmed***,

I want you to use this:

The Serenity Prayer Stress Tool!

#1 Make a list of ALL the things that are stressing you out.

#2 Using the worksheet on the next page, place the things from your list in the appropriate section.

#3 Fold the paper on the line and **RIP IT IN HALF**. Get rid of what you CAN'T do anything about!

I have also created a couple

mini posters!

This way you can rip / cut them 
out of the book

And put them up on your fridge, computer,
or wherever you'll see them!

This will help reinforce the
new tools you're trying to
get good at using!

The Serenity Prayer Stress Tool!

Grant me the **serenity** to accept the things
I cannot change:

The **courage** to change the things I can:

And the **wisdom** to know the difference!

Want More Tools?!

Carol has written more “tool” books!

If you need help:

- ✓ Losing weight
- ✓ Dealing with anger
- ✓ Managing health issues

Take a look at the next few pages...

Chronic illness doesn't exclude you from having wellness. Get a blueprint to follow for taking back control of your health!

Are you sick & tired of feeling sick & tired? This is a step by step system for reclaiming your life from depression.

Self-care is often forgotten in this busy world. Carol offers simple and practical strategies to fit in to your busy life!

No – this is not promoting smoking! Instead, it provides the knowledge & the ‘tools’ to finally “Kick Cigarettes Butts”!

Available: amazon.com/author/carolrickard

ANGER - one of the most powerful emotions there is. Learn how to manage it instead of it managing you!

Losing weight doesn't have to be complicated! Learn the 7 *Laws of Lasting Weight Loss* a car can teach us. Guaranteed to work!

Your mind *is not* supposed to be quiet! Learn how meditation really works & change your life forever!

Do you find yourself struggling with what to say or how to help someone you care about? Learn how to say it & what to

Available: amazon.com/author/carolrickard

WordTools

What are words tools?

They are acronyms with purpose & meaning!

They are officially called *Artinym*™, which is Sanskrit for “describe”.

On the back of each wordtool is a question for you to answer should you choose to!

We have **4 different versions:**

Wellness Vol. 1 & 2, **Self-Esteem** Vol. 1 & 2
Business Vol. 1 & 2, **Athletes** Vol. 1

Examples:		
T he		D aringly
O nly		R ecognize
D ay	A	E xperiences
A fforded	D eliberate	A s
Y ou!	A adjustment	M ine
	P roviding	
	T ransformation	

NEW RELEASE!!!!

Kid these days have to deal with so much stress. This makes sure they have the tools to succeed!!

We have three different versions of adult stress books because life circumstances can be different for each.

Choose the one that **best fits** your situation!

Caregiver

Research has shown caregivers are the MOST vulnerable. Learn quick, simple, practical tools for reducing and managing it.

Stress Eater

Do you find yourself eating when under stress? Get the tools & knowledge needed to break away from any old habits.

General

STRESS... It's all around us and NOT getting any less! Get the system Carol has taught to 1,000's & finally take control!

This series of books introduces Carol's proprietary **DO 60 System™** that you learned about in this book! Each version has added chapters geared towards that **specific audience**.

General Audience - This is the book that started the series! You'll learn the system that lets you finally take control of stress!

Brides

Nurses

Caregivers

Teachers
